

Entry-level just got a lot more high-end.

Introducing the all new RL1600 — Triton's most affordable, feature-rich, off-premise ATM. The RL1600 is a remarkably high value solution for retailers looking to boost cash sales, as well as financial institutions interested in expanding customer touch points with offsite ATM placement.

- Color screen with 640 x 480 resolution (standard)
- Powerful Windows® operating system for faster transactions
- TCP/IP communication capabilities (standard)
- Compact design that won't take up valuable floor space
- Advertising and screen customizing capabilities help drive traffic to your location and increase customer loyalty
- Packed with many extras normally reserved for machines twice its price
- Affordable price makes it easy to place at multiple locations
- Expandable to meet future needs
- Designed and assembled with pride in the USA
